I WOULD YOU LIKE A NEW NOSE?

A Boston Surgeon Who Makes Nasal Organs of Any Shape to Order.

There can be no greater deformity than the loss of one's nose. Any kind of an organ, whether pug, turned up or flat, is preferable to an entire absence of one.

In olden times, men and women who were so unfortunate as to lose this member, unless wealthy, had to get on as best they might, but the individuals of great substance could provide themselves with artificial ones of ivory, gold or silver, usually enameled and of flesh color. These substitutes were, of course, awkward and uncomfortable, but the victims were thought to conceal, their loss.

In later days surgery came to the aid of the noseless, and what is called plastic surgery, or Talicotean operations are performed. These consist in taking adjacent pieces of skin, and twisting and turning them to unite with the freshly cut edges of the remnant of the original nose. Plugs of cotton and quills through which to breathe form the nostrils, and the result is a new nose, but of a putty-like appearance, as it has no bridge. Such a nose, as everybody knows, is better than no nose at all, but the new ones of surgery were by no means beautiful.

But a wonderful revolution in the restoring of that most useful and ornamental organ has within a month or two taken place in this city, which, so far as is known, is the first of the kind in the United States. Dr. H. D. Burrell, surgeon of the City and Carney hospitals, it is who has made the discovery in the way of furnishing a bridge for the nose.

At the time spoken of above, an otherwise fine looking woman from one of the thriving towns of the state, with a not at all pleasant apology for a nose, applied to Dr. Burrell for relief. Her deformity was such that she was compelled to live a most secluded life, rarely going out, save at night for needed exercise.

It occurred to Dr. Burrell that an improvement might be made on previous operations, and that, by adding a properly shaped piece of bone from a living animal, a natural looking nose could be made. An appointment was given the woman at Carney Hospital, and an operation was performed by cutting out the side of the mutilated member and turning it completely over.

A young chicken was then killed, and a piece of the breast bone of proper shape united to the root of the nose on the skull by silver wires. Then the flesh of the old nose was properly stretched over the bone and secured by ligatures. Tamkins of cotton were put in to give the nostrils the proper shape.

The new bone became properly united with its attachment, the wound healed, and the operation, thus far, is a perfect success. The patient has now a fine Roman nose, and the only scar is a nearly imperceptible line at one side of the newly made organ.—Boston Herald.

BITTEN BY A RATTLESNAKE.

The Luxury of Being Dosed with the Most Approved Antidote to the Poison.

A correspondent writing from Hawley, Penn., reports a backwoods resident as saying:

"They tell a story about a tough old bushwacker who lived down back of Schutt's Pond. Life had little charm for him when whiskey was scarce.

"Once he had been for several days in hard luck. He had been unable to buy a drink of his favorite tipple, and none of his neighbors was inclined to satisfy his longing for a nip.

"One day he was picking huckleberries, which he intended to exchange for whiskey, when he was bitten on the hand by a rattlesnake. He was a mile or so from a neighbor's who he knew had a fair-sized jug which was generally well stocked.

"The old soak dropped his berry pail and flew across the barren to the house. He dashed through the door, and clapping his hands shouted:

"'Glory hallelujah, Abe! I'm bit by a rattlesnake! Open the jug and fill me!'"

"Abe was scared, and in less than five minutes the snake-bitten bushwacker had a quart of whiskey under his shirt. The snake bite never bothered him, but in the course of a couple of weeks he was way down on his luck again.

"Then he thought he would catch a mess of pickerel, and see what he could do with them as exchange for something he longed for more than he longed for fish. While he was on his way to the pond a man who lived near by saw him stealing cautiously along an old road. The man went out and got close to the old toper without the latter having discovered him.

"What was the man's alarm to see a big rattlesnake coiled in the road, ready to spring, and the bushwacker almost within reach of it. The man sprang upon the snake with his heavy boots and smashed its head. The old toper jumped back and whined:

"'Now, w'at'd ye go an' do that fer?'

"'Why,' replied the man who had killed the snake, 'that rattler would have had his fangs in you in ten seconds more!'

"'I know it,' whined the old bushwacker. 'But don't ye know I'm pinin' fer whiskey!'"

The Homely Waiter Girl.

"Come, Ned, let's take this table over here."

"No, no, old man, come down in the corner there, furthest from the door."

"But look here, Ned, just see the table-girl over here. Isn't she a daisy? She's the prettiest one in the place. I don't want to go down there to be waited on by that old chromo."

"There, there, my boy; you just stop your nonsense and come along with me. I've been grubbing at restaurants too long to be fooled by any such talk as that. If you want to flirt you can get a prettier girl outside. If you want to eat you come here and pick out the homely waiter. The waiter-girl who is pretty doesn't have time to do anything else. It's the homely girl who brings your order straight and gets you your dinner hot every single time."

It is astonishing how pretty the homely girl you have never seen can look when she is softly talking nonsense to you through the telephone.—Somerville Journal.

THE MARKET IN HAVANA.

A Vast Variety of Food Found in It.

The visitor is astounded at the vast varieties of food that can be found in the market at Havana. There is nothing to compare with it in a single market of any American or European city.

Briefly, every article displayed in the most sumptuous American markets, including every known brand of American canned goods, is here, and besides this, every fruit, vegetable, herb and flower produced in this land of indescribable luxuriance, and that, too, not in brief seasons, but every hour in every day in the year.

Think of twenty-six varieties of [illegible]

There are between forty and fifty varieties of herbs and vegetables used in salad-making alone.

Nor can one form any conception, until it is seen, of the Cuban supply of food-birds. I was shown and counted myself eighty-three different kinds of birds, comprising thirty-seven distinct species; while the magnificence and luscioumess of vegetables and fruits are positively beyond comprehension by us who exist in rigorous climes.

And here the concrete realism of daily life blends pleasantly with one's most vivid imaginings, until through the warp and woof of conscious comprehension are wrought the bitter and the sweet, the cloud and the sunshine, of Cuban memories in fadeless dyes.

A QUEER BAROMETER.

And One Not Difficult To Procure.

It is not generally known that the rendered fat of a woodchuck is as good a barometer as any we have to-day.

While in the country a short time ago the writer had occasion to travel through the lower part of Berks. At the house of a friend he pressed me to take an umbrella with me. There were no signs of a storm. I asked why he persisted in so dogged a manner for me to accept the article.

"Why," said he, "look at my barometer."

There upon the shelf stood a bottle sealed with beeswax. It was all cloudy.

The old gentleman said that he had used this one for most twenty years, and if a storm was brewing the barometer got cloudy twelve hours before the rain or snow began to fall. In clear weather the oil was always clear.—Reading Herald.

Well-Pointed Wit.

The late Dr John Brown, an eminent Scottish author, tells a story of a lady suffering from what seemed likely to prove a fatal quinsy.

Her husband, who was deeply attached to her, was bending over her in the utmost concern. She could swallow nothing. By some strange and scarcely voluntary whim of association he expressed his wonder whether she could swallow a compliment.

The remark so tickled her that she broke into a laugh; the laugh burst the quinsy, and showed her recovery to that must otherwise have been pronounced the most unseasonable of jokes.

An Unceremonious Wedding.

"I was in at the death at a rather novel wedding last night," said Mr. Jack Bradford.

"It was on a train near Spartanburg. About 11 o'clock, when just in the midst of a quiet snooze, I was startled by a gruff voice saying:

"'Do you take this woman to be your lawful wedded wife?'"

"For a minute I thought it was meant for me, and I made a break for the nearest window; but as soon as I saw my time hadn't come, I breathed easier and did the spectator act.

"There were the victims and the preacher and the father of the happy bride with an ugly-looking gun pointed in the direction of the happy bridegroom. The groom never winced, but went through the ceremony like a little man.

"Then I went back to sleep."—Atlanta Constitution.

[illegible] HUMOR.

When may a man be said to belong to the vegetable kingdom?—When experience has made him sage.

"Listen to your wife," says a medical advertisement.

"As though one did not have to listen to her!" is the comment of a henpecked one.

SCENE—A draper's in Piccadilly.—Customer: "I do not like those colored cravats. They are not 'good form.'"

Shopman: "You surprise me, sir. Why, I never wear any other!"

A WESTERN man sent in to the editor of a local paper an item to the effect that his fortieth wedding anniversary would be observed on a certain day. To his disgust, when the announcement appeared, it was found that the printer had left out the word "anniversary."

TEACHER: "How many zones are there?"

Boy: "Six."

T.: "No, there are only five."

B.: "Yes, there are six."

T.: "Name them."

B.: "The torrid zone, the northern and southern temperate and frigid——"

T.: "That's five; what is the other zone?"

B.: "O-zone!"

AN old gentleman, on taking up his paper, found that he had mislaid his spectacles. "What a nuisance!" he exclaimed. "I have lost my glasses somewhere, and I can't read the paper." Whereupon his little three-and-a-half-year-old grandchild, desiring to assist him, suggested, "G'an'pa, you go outside and look froo ze window, and I'll hold ze paper up so you can read it."

A STOUT red-nosed man in an hotel offered to wager a sovereign that he could close his eyes and, simply by taste, name any kind of liquor in the place. The bet was taken.

"This is genuine port," said the fat man, tasting from a wine glass; and this is whiskey;" and so on.

A waz then poured a few drops of water into a glass, and handed it to the taster.

"This is—ah—ah—this is——" tasting it several times. "By Jupiter, gentlemen, I have lost the bet! I never tasted this liquor before."

"Were it possible for every voter of the Republic to see for himself the condition and recompense of labor in Europe, the party of free-trade in the United States would not receive the support of one wage-worker between the two oceans."—JAMES G. BLAINE.

NEW YORK.

The Democracy are very sanguine of carrying New York in November and thereby secure Cleveland for another term. That State was carried for Cleveland by only 1,000 plurality when the Republicans were having a family row, but this year they are united on Harrison and Morton, and are daily receiving accessions from the Democratic ranks. A Corning dispatch says that W. McNamara, a Democratic candidate for the Assembly in 1885 and again last year, and who stumped the State for Cleveland in 1884, is out for Harrison and Morton, and forty other Democrats of Corning have left the Democratic party. At Canajoharie over 30 working Democrats have signified their intention of supporting Harrison and Morton. Hon. Ben Ray, of Hudson, and a Democratic State Senator, is strong for Harrison. Newburgh has a sensation in the withdrawal of Joseph Martin, the great shoe manufacturer, from the Democracy.—Having been a leading Democrat of that section of New York, his refusal to support Cleveland for a second term has created great consternation among the Democrats—and thus they are flocking to Harrison and Morton. The Free Trade policy of Cleveland will lose New York by at least 50,000 majority.

On the 1st of September the Pacific Coast Steamship Company will establish a line of excursion steamers between San Francisco and San Diego, stopping at way ports. They are to make fifteen knots an hour, and make the trip in 27 hours, carrying passengers through to Los Angeles within three hours of railroad time. These steamers are to carry passengers only.

Agreeably with the "slate," the Democratic State Central Committee met in San Francisco on Saturday last, and nominated Judge Sullivan, of that city, for Associate Justice of the Supreme Court, in place of McKinstry, resigned. Judge Sullivan was badly beaten two years ago, and will be again.

Congressman Biggs, who was reported to be very sick in Washington, has returned home, and is said to be looking in fine health, notwithstanding reports to the contrary. He has deserted his post in Congress to look after a re-election. Eagon will look after Biggs' prospects, which are far from promising.

TOO QUICK.—Let the American workman vote for Cleveland and Free Trade and see how quick he will have to draw on his earnings he has put in the savings bank to support his family. When he has to draw his earnings instead of adding to them he will see the beauties of the Cleveland Free Trade policy.

It is said that a syndicate, backed by Berlin capital, is buying up timber lands in Minnesota and Wisconsin, and that vast tracts have already been secured, and more are being gobbled up. It is time such work was stopped.

A large fire occurred at Fresno on Sunday morning last. Loss some $150,000.—It was undoubtedly the work of incendiaries, and a vigilance committee was organized to drive out all suspicious characters.

The Sun, of Braddock, Pennsylvania, formerly a Democratic organ, has come out for Harrison and Morton—and so the ball keeps rolling.

The American National Convention at Washington on Wednesday burst up in a row. Less than 80 delegates were present.

"HOME AGAIN."

After a sojourn in Europe of fourteen months the greatest American on this continent is again in the midst of his countrymen. James G. Blaine arrived at New York early on Friday morning of last week, and met with a reception that no other American could hope to receive at this time. The great procession in his honor could not be postponed until his arrival, which was delayed by fogs, came off on Thursday evening in that city and was an enthusiastic and imposing turnout.

During his trip abroad he had his eyes and ears open and can tell the American workingmen and mechanics during the next two months what they may have to compete with in the matter of European low wages in the event of Cleveland's election. In his reply to the welcoming address he said:

"The campaign which you are about to enter should be prefaced, if that were possible, by every voter in the United States, seeing what I have seen and hearing what I have heard during the last year. The progress of the campaign in the United States is viewed from the European standpoint with interest as profound as in the United States. It is the opportunity of England. It is the long looked for occasion upon which the cheaper labor and cheaper fabrics of the old world expect to invade the new world and lower the wages of the American workingmen to the European standard. It is not a contest of capital against capital; it is not a contest of partisan against partisan. It is much higher than either of these. It transcends all the party motive, whether the great mass of American citizens who earn their bread by the sweat of their brow shall be seriously reduced in their emolument from day to day. This is the whole pith and movement of this question. Anything that diverts the question from that single point is the weakening of the campaign. I say here that the wages of the American laborer cannot be reduced except with the consent and votes of the American laborer himself. The question lies with him. It comes to his door and asks him whether, with the great franchise and the great majority he possesses in his own hand, he is willing for himself and associates, his children and his children's children to take that fatal step at the bidding of an American Congress and an American President who are governed by that element which fought to destroy this nation."

Mr. Blaine will pour hot shot into the ranks of the Democracy from this on, to the 6th of November, and when the smoke of the battle rises at sundown on that day it will be found that the Democratic ranks have been greatly thinned out.

INYO ACADEMY.—We are in receipt of a catalogue of the Inyo Academy, in successful operation at Bishop Creek. Here the student is offered the choice of six different Courses. Three of them, the Classical, Philosophical and Scientific, comprise much more than a full preparation for the same courses as laid down in the curriculums of the chief colleges and universities of the country. The Normal and Commercial Courses will be placed at once upon a par with the best to be found elsewhere. It has been deemed best to offer a special course of one year's length preparatory to the regular Academic Course, and those who intend to enter this Academy should be present at the opening of the school year, September 5th. We notice the names of several students from Southern Mono, and would recommend our people to send their children to it, in preference to sending them to the other side of the mountains, so far from home. The interests of Inyo and Mono are more or less blended, and we should look upon this Academy as a home institution.

Our Democratic friends say we can buy a suit of clothes so cheap under Free Trade; but where will one get the money to buy a suit if our mills and workshops are shut down on account of England flooding the country with her pauper labor goods? We would be as bad off as was the fellow who could not buy a gang-plank if steamboats were selling for a "bit" apiece.

Charles Crocker, President of the Southern Pacific Company, died at Monterey on Monday. He was one of the noble four Californians who gave California its great railway system, and the Nation a national highway. Stanford and Huntington alone survive him.

APPLICATION FOR A PATENT.

U. S. LAND OFFICE INDEPENDENCE, CAL., August 4th, 1888.

NOTICE IS HEREBY GIVEN THAT THE MONTE CRISTO CONSOLIDATED MINING COMPANY, A. Kilpatrick, Agent, whose Post Office address is Cameron, Mono County, State of California, has this day filed its application for a patent for Fourteen hundred and fifteen (1415) linear feet of the General Grant Quartz Mine or vein bearing gold and silver, with surface ground Six hundred and (600) feet in width, situated in Patterson Mining District, County of Mono, and State of California, and designated by the field notes and official plat on file in this office as lot Number 48 in Township 7 North, Range 25 East of Mount Diablo Base and Meridian, said Lot No. 48 being described as follows, to wit:

GENERAL GRANT.

SURVEY OF EXTERIOR BOUNDARY OF GENERAL GRANT.

Beginning—Commencing at N. E. corner, at 4x4 pine post, 4 feet long, set in mound of earth and stone, and marked Post No. 1, N. E. corner U. S. Grant; this post is situated one chain down on the south slope of ridge that forms water shed between North Branch of Frying Pan Creek and Green Creek, running thence:

Mag. Variation 16° 15' East, No. 1, N. 77° 55' W. Ascending slope of 5°; 4.54.5 chains, 300 feet, intersect north end Lode Line post, marked U. S. Grant, L. L. Post No. 1, pine post set in mound of earth and stone, size 4x4 feet long; ascending slope of three degrees (3°); 9.09 chains, across rock trail running north to Eclipse Mill and Clinton; 9.09 chains, 600 feet, intersects N. W. corner post of claim, a 4x4 pine post, 4 feet long, marked Post No. 2, N. W. corner U. S. Grant, set in mound of earth and stone. No. 2, S. 12° 5' W. Descend slope of 9° through dense dwarfed growth of mountain mahogany; 10.72 chains encounter side line post marked Post No. 3, U. S. Grant; descend slope 11°; 21.44 chains, 1415 feet, intersect S. W. corner post, a 4x4 pine post, 4 feet long, marked Post No. 4, S. W. corner U. S. Grant; from whence the Section corner common to S. E. corner of Section 31, and S. W. corner Section 32, T. 7 N., R. 25 E., M. D. B. & M., bears S. 40° 36' E., 82.45 distant, as calculated from Traverse. Course No. 3, S. 77° 55' E. Ascending slope of 2°, and coinciding throughout with north end line of Livingstone claim, 4.54.5 chains, 300 feet, encounter south end Lode Line post, a 4x4 pine post, 4 feet long, set in mound of stone and earth, and marked U. S. Grant, L. L. Post No. 1; descending slope of 5°; 7.99 chains pass under south face of perpendicular croppings and run parallel to same for a distance of 3.10 chains; 9.09 chains, 600 feet, intersect S. E. corner post, a 4x4 pine post, 4 feet long, set in mound of stone against perpendicular face of croppings, and marked S. E. corner U. S. Grant, Post No. 5. Course No. 4, N. 12° 5' E. Starting on top of croppings, at a point perpendicular over S. E. corner post, descend croppings at an angle of 15°; 8.17 chains, ascend on a slope of 13°; 10.72 chains, encounter east side line post marked Post No. 6, U. S. Grant; continue on same slope; 21.44 chains, 1415 feet, intersect initial point, that of beginning.

The necessary correction for given slopes and distances has been applied.

SURVEY OF LODE LINE OF GENERAL GRANT.

Commencing at point of location, at a 4x4 pine post, 4 feet long, set in mound of earth and stone, and marked U. S. Grant, L. L. Post No. 1, it is situated on the summit of ridge which divides the waters of the North Branch of Frying Pan Creek and Green Creek, running thence:

Mag. Variation 16° 15' East.

Course No. 1, S. 12° 5' W. Descending slope of 9°; 10.72 chains, slope changes 7° downward, and runs through a scattering stunted growth of nut pine; 21.43 chains, intersect 5 yellow pine trees, 18 inches in diameter, blazed on south side, and marked, with marking iron, U. S. G. L. L.; 21.44 chains, 1415 feet, terminates lode line at 4x4 pine post, 4 feet long, set in mound of earth and stone, and marked U. S. Grant, L. L. Post No. 2.

Magnetic variation 16° 15' East containing 19.45 acres.

The location of this Mine is recorded in the Recorder's office of Patterson Mining District in Book "B," page 226 of Records of Patterson Mining District, Mono county, State of California.

The adjoining claimants are on the North by North Eastern claims; South by Livingstone mine; East by Bull Pine mine, and West by the M. & C. mine.

Any and all persons claiming adversely any portion of said Gen. Grant Quartz Mine or surface ground are required to file their adverse claims with the Register of the United States Land Office at Independence, in the County of Inyo, State of California, during the sixty days period of publication hereof, or they will be barred by virtue of the provisions of the Statute.

NOTICE IS HEREBY GIVEN THAT THE MONTE CRISTO CONSOLIDATED MINING COMPANY, A. Kilpatrick, Agent, whose Post Office address is Cameron, Mono County, State of California, has this day filed its application for a patent for Fifteen hundred (1500) linear feet of the Livingstone Quartz Mine or vein bearing gold and silver, with surface ground Six hundred (600) feet in width, situated in Patterson Mining District, County of Mono, and State of California, and designated by the field notes and official plat on file in this office as Lot Number 44 in Township 7 North, Range 25 East of Mount Diablo Base and Meridian, said Lot No. 44 being described as follows, to wit:

SURVEY OF EXTERIOR BOUNDARY OF LIVINGSTONE.

Beginning—Commencing at a 4x4 pine post, 5 feet long, marked "Post No. 1, N. E. corner Livingstone," set in mound of stone, at the south base of immense croppings, known as the "U. S. Grant" croppings; these croppings are situated midway down the south slope of the ridge that forms the water shed between the North Branch of Frying Pan and Green Creeks, 1 mile east of Star City, Mount Patterson bears West three miles distant; these croppings slope down gradually on the north, but from an almost perpendicular escarpment on the south, presenting an almost perpendicular face, 60 feet in height; running thence, Mag. Variation 16° 15' East. Course No. 1, N. 77° 55' W. Ascending slope of 8°, and running parallel with face of croppings, croppings terminate at a distance of 1.10 chains on this line; 4.54.5, 300 feet, encounter L. line Post, 4x4 pine, 4 feet long, set in mound of earth and stone, and marked L. L. Post No. 1, Livingstone; descends slope of 8°; 9.09 chains, 600 feet, to N. W. corner post of claim, it being a 4x4 pine post, 4 feet long, set in mound of earth and stone, and marked Post No. 2, N. W. corner Livingstone, from whence the Section corner common to the S. E. corner of Section 31 and S. W. corner of Section 32, T. 7 N., R. 25 East, M. D. B. M., bears S. 40° 36' East, 82.45 chains distant, as calculated from Traverse. Course No. 2, S. 12° 5' W. Descending slope of 9°; 6.68 chains to S. W. corner of Huntington's Quartz mill; 9.09 chains, cross wagon road leading from Huntington Quartz mills to Newburgh, slope reduced to zero; 11.36 chains, to 4x4 pine post, 4 feet long, set in mound of earth and stone, and marked Post No. 3, Livingstone; descend slope 8°; 14.18 chains, cross North Branch of Frying Pan Creek, 4 links wide; ascend slope of 21°; 15.91 chains, ascending slope decreases to 8°; 22.72.5 chains, 1500 feet, S. W. corner of claim at a 4x4 pine post, 4 feet long, set in mound of earth and stone, and marked S. W. corner Livingstone; Post No. 4; at this point I found posted Notice of Location. Course No. 3, S. 77° 55' E. On level, 1.00 chain, line passes through a grove of young mountain aspen trees, 60' wide; then ascends slope of 10°; 4.54.5 chains, 300 feet, encounter south end L. line post 4x4, 4 feet long, set in mound of earth and stone, and marked L. L. Post No. 2, Livingstone; ascend same slope, 6.00 chains, slope changes and decreased at an angle of 14°; 9.09 chains, 600 feet, intersect S. E. corner of claim at a 4x4 pine post, 4 feet long, set in mound of earth and stone, and marked Post No. 5, S. E. corner Livingstone. Course No. 4, W. 12° 5' E. Descend slope of 14°; 5.75 chains, encounter S. W. corner post of Bull Pine claim, from this point north, the east line of Livingstone, and west line of Bull Pine coincide for a distance 16.98 chains; descending slope of 23°; 7.75 chains, cross North Branch of Frying Pan Creek, 4 links wide; ascend slope of 23°; 8.26 chains, ascending slope changes to 11°; 11.36 chains, encounter side line post marked Post No. 6, Livingstone; ascend slope of 17°; 13.60 chains, cross wagon road connecting Huntington's Quartz Mill and Newburgh, bears N. 13° East, and S. 83° W.; 22.72.5 chains, 1500 feet, intersect initial point of survey. The necessary correction corresponding to given slopes and distances has been applied.

SURVEY OF LODE LINE OF LIVINGSTONE.

Commencing at a post set 4 links south of a yellow pine tree, 18 inches in diameter, blazed on south side, and marked in blaze with marking iron, U. S. G. L. L., the post being of pine, 4x4 inches, by 4 feet long, set in mound of earth and stone, and marked with india ink as follows; L. L. Post No. 1, Livingstone; running thence:

Mag. Variation 16° 15' East. Course No. 1, S. 12° 5' W. Descending slope 17°; 8.30 chains, cross wagon road leading from Newburgh to Huntington Mill, bears N. 64° East, and S. 69° West; descend slope of 13°; 13.00 chains, slope increases downward to 21°, and passes over springy and marshy ground; 14.20 chains, cross North Branch of Frying Pan Creek, 4 links wide; ascend slope of 20°; 16.10 links, return to level; 9.00 chains, again ascend slope of 11°; 22.72.5 chains, 1500 feet, reach south termination of Lode Line at a 4x4 post, 4 feet long, set in mound of stone and earth, and marked L. L. Post No. 2, Livingstone.

Magnetic variation 16° 15' East, containing 20.63 acres.

The location of this Mine is recorded in the Recorder's office of Patterson Mining District in Book "B," page 255, of Records of Patterson Mining District, Mono County, State of California.

The adjoining claimants are on the north by General Grant mine; South by vacant land; East by Bull Pine mine, and West by Monte Cristo mine.

Any and all persons claiming adversely any portion of said Livingstone Quartz Mine or surface ground are required to file their adverse claims with the Register of the United States Land Office at Independence, in the County of Inyo, State of California, during the sixty days period of publication hereof, or they will be barred by virtue of the provisions of the Statute.

APPLICATION FOR A PATENT.

U. S. LAND OFFICE INDEPENDENCE, CAL., August 4th, 1888.

NOTICE IS HEREBY GIVEN THAT THE MONTE CRISTO CONSOLIDATED MINING COMPANY, A. Kilpatrick, Agent, whose Post Office address is Cameron, Mono County, State of California, has this day filed its application for a patent for Fifteen hundred (1500) linear feet of the Bull Pine Quartz Mine or vein bearing gold and silver, with surface ground Five hundred-9 (500 9) feet in width, situated in Patterson Mining District, County of Mono, and State of California, and designated by the field notes and official plat on file in this office as Lot Number 45 in Township 7 North, Range 25 East of Mount Diablo Base and Meridian, said Lot No. 45 being described as follows, to wit:

SURVEY OF EXTERIOR BOUNDARY OF BULL PINE CLAIM.

Commencing at the N. E. corner post marked Post No. 1, N. E. corner Bull Pine; this post is situated in a depression formed by the rise of the croppings, known as the "U. S. Grant" croppings, on the south, and dividing ridge of the waters of Green and Frying Pan Creeks, on the north; size of post 4x4, 4 feet long, set in mound of earth and stone; running thence, Mag. variation 16° 15' East. Course No. 1, N. 77° 55' W. Ascending slope of 12°; 3.79 chains, 250.1 feet, intersect north end L. Line post, a 4x4 pine post, 4 feet long, set in mound of earth and stone; ascending slope decreases to 8°; 7.59 chains, 500.9 feet, intersect N. W. corner post, a 4x4 pine post, 4 feet long, set in mound of earth and stone, and marked Post No. 2, N. W. corner Bull Pine. Course No. 2, S. 12° 5' W. Along west line of U. S. Grant, and identical with same, descending slope 15°; 5.75 chains, two posts placed in same mound of stone at base of perpendicular croppings, 60 feet high, marking the S. E. corner of "U. S. Grant" and N. E. corner Livingstone; course and line run identical with east line of Livingstone; descending; 11.36 chains, slope 17°, to post marked No. 3 Bull Pine; 14.88 chains, cross wagon road leading from Newburgh to Huntington Q. mill; same slope; 17.03 chains, downward slope increases to 22°; 20.78 chains, cross North Branch of Frying Pan Creek; ascend slope 23°; 22.72.5 chains, 1500 feet, intersect S. W. corner, a 4x4 pine post, 4 feet long, marked Post No. 4, S. W. corner Bull Pine; from whence the Section corner common to S. E. corner of Section 31 and S. W. corner Section 32, T. 7 N., R. 25 East, M. D. B. and M., bears S. 40° 36' East, 65.17 distant, as calculated from Traverse. Course No. 3, S. 77° 55' E. Descending slope 6°; 3.80 chains, 253.8 feet, to south end of Lode Line, a 4x4 pine post, 4 feet long, set in mound of earth and stone, and marked L. L. No. 2, Bull Pine; descending slope of 12°; 7.59 chains, 500.9 feet, to southeast corner post, a 4x4 pine post, 4 feet long, set in mound of earth and stone, and marked Post No. 5, S. E. corner Bull Pine. Course No. 4, N. 12° 5' E. Descending slope of 21°; 1.45 chains, cross North Branch of Frying Pan Creek, 4 links wide, water falling east; ascend abrupt slope of 31°; 5.60 chains-slope decreases and ascends at an angle of 15°; 10.96 chains, cross wagon road, bears east and west; leading from Newburgh to Huntington Quartz mill; 11.37 chains, to 4x4 pine post, 4 feet long, set in mound of earth and stone, and marked Post No. 6, Bull Pine; ascend slope of 12°; 22.72.5 chains, 1500 feet, to initial point of survey. The necessary correction for chaining on slopes has been applied.

SURVEY OF LODE LINE BULL PINE CLAIM.

Commencing at point of location, at a 4x4 pine post, 4 feet long, set in mound of earth and stone, and marked L. L. Post No. 1, Bull Pine; running thence:

Mag. Variation 16° 15' East. Course No. 1, S. 12° 5' W. Descending slope of 6°; 2.50 chains, reach base of croppings; ascend slope of 15°; 4.20 chains, descend spur of croppings almost perpendicular; 5.00 chains, pass over a dike of quartz and other boulders on a descending slope of 16°; 6.82 chains, descending slope decreases to 11°; 12.64 chains, cross wagon road leading from Newburgh to Huntington Quartz mill; descending slope of 21°; 19.82 chains, cross North Branch of Frying Pan Creek, 4 links wide, its waters falling to the east; descending slope of 19°; 22.72.5, 1500 feet, intersect post at south end of L. Line at a post marked L. L. Post No. 2, Bull Pine, 4x4 post, 4 feet long, set in mound of earth and stone.

Magnetic variation 16° 15' East containing 17.24 acres.

The location of this Mine is recorded in the Recorder's office of Patterson Mining District in Book "B," page 251, of Records of Patterson Mining District, County of Mono, State of California.

The adjoining claimants are on the North by vacant land; on the South by the Jersey claim; East by Simmons claim, and West by Livingstone and General Grant mines.

Any and all persons claiming adversely any portion of said Bull Pine Quartz Mine or surface ground are required to file their adverse claims with the Register of the United States Land Office at Independence, in the County of Inyo, State of California, during the sixty days period of publication hereof, or they will be barred by virtue of the provisions of the Statute.

Manufacturer of Acorn Dress Shirts, Collars, Cuffs, Shirt Fronts, Ladies' Collars and Lace Neckwear,

ALBANY, N.Y.

The latest shirt issued under the "Acorn" Brand is "THE WONDER," and it is also the best shirt ever made for the Trade.

The following are some of its principal points of excellence, a printed list of which is attached to each shirt:

1st—It has the finest and heaviest muslin ever put in a shirt, (Utica Nonpareil improved).

2—It has a 3-ply linen bosom.

3—It is of extra length.

4—It is reinforced, both back and front, extending and meeting under the arm where most needed.

5—It has the Tomlinson patent endless facing.

6—It is custom make and finish.

7—It cannot break or tear anywhere.

Like the Deacon's "one-hoss shay," it has no weak spot, and will never "give" anywhere, but, at the end of scores of years, it will dissolve into space—not a thread broken or a seam started.

Fathers will bequeath these shirts, purchased in early manhood, a priceless legacy to their children.

We expect a large demand for them to place in the corner stones of linen structures as evidence of the greatest triumph of modern civilization.

We are taking steps to put this crowning achievement of art into the "Acorn" agencies in London, Paris, Berlin, St. Petersburg and Constantinople, when it can not fail of instant and permanent success.

LOCAL INTELLIGENCE.

Personal.

H. Marden, of Aurora, is in town.

Senator Gallagher, of Mason Valley, and R. P. Keating, of Virginia City, Nev., and Superintendent of the Hale & Norcross, were here yesterday.

H. A. Whiting, Superintendent of the Bodie mine in its palmy days, is here in the interest of the State Mining Bureau. We trust our people will give him all the information they can in regard to the mineral resources of our county.

In Good Fellowship.—Notwithstanding there are several candidates for the Republican nomination for the several county offices, and for the Assembly, to be voted for on the 8th of September, there is a good feeling existing among them, and the ones who are successful in getting the nomination will have the warm and earnest support of those who are defeated. There will be no "bucking," and the ticket nominated on that day will be the winning one. All are pledged to support the ticket nominated, and we do not know of a man named for any position who will fail to do his utmost to elect the ticket. All cannot be nominated, but your turn may come next term.

"Stop It."—A certain Bodieite has called attention to an item in this paper last week, headed "Stop It," and intimates that we referred to a bevy of Bodieites who spent several days very pleasantly in our town that week. These gentlemen well know that we had reference to parties from the other side of the mountains who were trying to "run the town." Our visitors from Bodie always behave themselves and are welcome here, with but one exception, and that one is he who intimates that we referred to our Bodie visitors. He is the only "hoodlum" from Bodie who has ever disgusted our people.

The District Fair.—We call attention to the advertisement of the Annual Fair of the 18th Agricultural District, to be held at Independence, Inyo county, commencing Sep. 17th and continuing five days. We regret that the fair is to be held so early in the season, as many of our people intended to visit the Fair this year and exhibit some fine stock, but it comes before they will be through their harvesting, and it will be impossible for them to leave home.

The Famous Cement Gold Mine.—On Tuesday Al. Cain and William Bender, of Antelope Valley, passed through town with a mining outfit, en route for the famous cement gold mine in the Mammoth District. Cain discovered this mine two years ago, and is now going to prospect it enough to satisfy himself as to its being the great cement mine that created much excitement some ten years ago, when the Pintes would not allow white men to work there.

New Proprietor.—The Bridgeport Stable, corner of Main and Sinclair streets, has been sold by Columbus C. Turner to P. E. Van Loan, who is now sole proprietor of the stable. Mr. Van Loan is well known throughout the county, having been in the same business at Lundy in the flush days of that camp, and knows how to "run" a stable in good shape. See his advertisement under "New To-day."

Candidates.—Charles M. Stewart is a candidate for Supervisor from Bridgeport and Lundy; and D. M. Walters, of the Willows Ranch, is a candidate for Public Administrator and Coroner, subject to the decision of the Republican Primary Election, September 8th.

Democratic.—The Democratic County Central Committee will meet at Bodie this evening to call a County Convention.—They have the pleasure of knowing that Republicans are not interfering in their party affairs, as to nominations.

State Land Patents.—The following land patents were issued from the State Surveyor-General's office last week: Jasper M. Harney, Mono county, 190.60-100 acres; and Jasper M. Harney, Fresno county, 640 acres.

Busy as Bees.—Our farmers are as busy as bees, and up to their ears in hay. The hay crop is not as heavy as last year. The Huntoons, on account of a scarcity of water on one section of their ranch, have cut the hundred tons less than last year.

Hale Bros.—We call attention to the new advertisement of Hale Bros. Our lady friends ordering from below cannot do better than send their orders to Hale Bros.

Fun Ahead.—Prof. Jackson will give an entertainment at Bryant's Hall on Saturday evening next, 25th, when our people will have something amusing, entertaining and instructive. See his advertisement.

M. E. Conference.—The Nevada M. E. Conference commenced yesterday at Sierra Valley.

Jurymen.—The following jurymen will honor Bridgeport with their presence on Monday next: John Hopper, C. C. Turner, W. H. Russell, W. D. Gerkins, L. Samman, J. E. Stewart, M. R. Holundrop, Wm. Radley, John Fridel, M. T. Chappel, F. M. Richardson, B. Peeler, John McAllister, A. J. Severe, A. Thompson, N. Daniels, A. Gardella, P. Tobin, J. L. C. Sherwin, H. Cohn, S. McCurdy, G. W. Vansickle, R. Terry, Thos. Sly, Sheldon Frost, John Krenkow, H. Smithorst, Thos. Edwards, O. R. Larson, J. A. Hammond, Paul Rouze, Thos. McNamara, J. H Job, Jos. Carney, J Sinnamon, J. Z. Lockwood, N. H. Gregory, Dolph Coronico, Peter Geelhoet, Wm. Pearson, Thos. Murnane, Wm. Luhrs, M. Cullinan, Chas. Salmon, J. H. Patterson, F. T. Hilton, F. P. Willard, N. Huntoon, R. McAlpin, J. O. Wheeler.

Will not Win.—For several years past there has been a Democratic interference, or attempted interference, with Republican county nominations, to create dissensions in our party, that our opponents might run in one of their candidates. This was attempted two years ago, but their efforts resulted in causing Republicans to stand firm to their ticket, and they elected every Republican officer but two, whose great popularity among Republicans saved them.—This year certain disreputable Democrats are seemingly trying the same game, but it will not win. Republicans can select their own candidates without the help of Democrats, who are not respected by their own party. The Republicans of this county, particularly the Republican press, have never within the past ten years interfered in Democratic local nominations, and we say, "hands off, gentlemen!"

Runaway Accident.—As the stage from Bodie was between here and the Point this morning, the horses scared at some sage-brush and started on the run. Geo. Moyle, the driver, and Mrs S. A. Hopkins were thrown out and stunned, Moyle being severely injured in the thigh. Mrs. Hopkins was unconscious for some time. After the team had ran about a mile Miss Julia Allen and little May Hopkins, who were on the back seat, jumped out, but sustained no injury. The horses were stopped on the bridge at the foot of Main street. Moyle was brought into town by A. F. Bryant, and the ladies were brought in by the stage which was sent back for them.

Accidents.—On Saturday last, Arthur, son of D. M. Walters, of the Willows, was thrown from a horse and badly bruised, but no bones were broken.

On Sunday A. H. Allen was kicked in the mouth by one of his horses and had several teeth knocked out.

A Terrible Deed.—On Saturday morning last, Zach. Field shot his wife and then shot himself to death in Scott Valley, near Santa Cruz. Zach. Field was formerly a blacksmith in Alpine county aged about 50 years, and married a young 17-year old school teacher, who taught in that county, he representing himself to be possessed of property in the East and well off. The parents of the girl lived in Genoa, Nev., where she was born and raised and highly esteemed. They were married without the knowledge of her parents, who knew Field to be a miserable wretch, as he has proven to be, but she remained with him, notwithstanding he had attempted to poison her father soon after the marriage. They left Genoa and went back to Alpine, and subsequently drifted to Santa Cruz. On Saturday morning he visited a neighbor and assisted in hitching up a team and after the neighbor had started for Santa Cruz, he took a rifle and went home, leaving the gun outside. He went inside the house and after some talk with his wife went out, she following. When he got outside he seized the gun and fired at her, one ball striking her arm and one entering the left breast just above the heart. He, supposing he had killed his wife, placed the gun to his face and blew the top of his head off, scattering his brains. The wife is in a critical condition, but may recover. Her father, W. Gray, of Genoa, went to Santa Cruz at once to do all he could for his misguided daughter, who has got rid of a scoundrelly husband, but at a terrible cost to herself. Zach. Field was always a low-lived blackguard, and how a delicate, refined and educated girl could marry such a man has been a mystery to her legion of friends.

Bound to go.—Salisbury has a choice lot of shoes for sale at cost.

Ladies, when you go to Bodie, call on Salisbury and get your dress goods at cost.

Must go, Can't Help It.—Selling goods at cost. Salisbury will give all a fair show.

Some of the best dressed gentlemen of Mono county are indebted to Silas B. Smith, of Bodie, for their stylish appearance. He has the agency for some of the finest tailoring establishments in the East. His samples for the Spring and Summer are unsurpassed. He displays over 2,000 different patterns of cloth. His experience with the tape line for many years insures a good fit every time. When in Bodie call on him and inspect the goods.

Helping the Right Side.

To help the right side is not only commendable in a general point of view, but is judicious and prudent when that help is enlisted in behalf of the right side of the body, just over the lower ribs in the region of the liver. The most efficient help is afforded by Hostetter's Stomach Bitters, an anti-bilious medicine of incomparable efficacy. Inaction of the liver is accompanied by constipation, sick headache, furred tongue, nausea, occasional vertigo, an unpleasant breath, yellowness of the skin and ball of the eye. The author of these symptoms, liver complaint, routed by the Bitters is accompanied by them in its flight. Fever and ague, which always involves the liver, dyspepsia, rheumatism, debility and kidney troubles are all maladies to the early relief and final cure of which this medicine is adapted. Don't use it by fits and starts, but systematically, that its full effects may result in a perfect restoration of health.

WHY VOTE FOR CLEVELAND!

The Lyon County Times gives the following reasons why Nevadans should vote for Cleveland. These will apply to the voters of Mono county, as well:

Nevadans should vote for Grover Cleveland for several reasons, among others, some of the following:

Because under his reign the Mint was closed as a coining institution and an assay office made of it.

Because he has reduced the pay of nearly every postmaster in the State.

Because he has reduced our mail service and has cut it down in every instance where it was possible, to the inconvenience of a large number of people.

Because he would rather see the Australian wool-growers get from 4 to 6 cents more a pound for their wool than they do, and Americans from 5 to 8 cents less a pound.

Because he is in favor of gold alone as money, and would not care a d—n if every silver mine in Nevada was closed down.

Because he has never been in favor of an appropriation of any kind for public purposes for Nevada.

And because he is especially hostile to this Coast because it did not give him a majority four years ago.

In a railroad accident near Port Jervis, N. Y., on Monday, twelve race horses were burned to death, among which were Eole, Fred. Gebhardt's famous racer, and several other valuable horses belonging to him.—He was to send Eole to his California ranch.

A. B. Stewart, formerly of Bodie, is one of the Directors of the Seattle and Southern Railway Co., which proposes to build a 150-mile railroad from Seattle to Portland, Oregon.

John L. Sullivan is training to meet Kilrain; but Judge Sullivan is training to assault our Works.

The Linkville, Oregon, Star, says there are fifteen lakes in that, Klamath, county. Is there much room for land?

The St. Louis murderer Maxwell paid the penalty of his crime on the gallows at St. Louis on the 10th, in company with Henry Landgraf, who murdered his sweetheart March 5, 1885. Maxwell murdered Preller one month after, April 6, thus those two scoundrels were permitted to live three years and four months after their crimes were committed. In England they would have been executed within a month after conviction, and their trial would have taken place at once, and "new testimony" that would come to light would avail naught, but the British Government at this late day—a few days before Maxwell's execution, asked for a respite on the grounds of new evidence "having been discovered," but the Governor of Missouri was too well satisfied of his guilt to grant the request, believing that the friends of Maxwell had had plenty of time to "discover" new evidence if there had been any such to discover.

The Western Union Telegraph Company has withdrawn its service at Pioche. A few years ago Pioche was one of the liveliest towns in Nevada, with a daily newspaper taking the telegraphic news of the world. Now it is a little hamlet of 200 or 300 people. When the Salt Lake and Los Angeles railroad is completed Pioche will boom again.

The great log raft from Nova Scotia arrived at New York on Saturday last. It was valued at $60,000, and the owner cleared $25,000 by the venture.

Miss Mary Van Arlington, a girl 19 years old, died on Saturday last, having accidentally shot herself through the lungs while unloading a pistol, at Sonora.

The annual meeting of the Nevada, Eastern Oregon and Idaho Wool-Growers' Association will be held in Winnemucca, Saturday, September 15.

The inmates of the Adult Blind Home, at Oakland, have earned and turned over to the State $14,000 since last November.

In Paris, on Monday, Boulanger was shot at five times by Prof. Perrin while out riding, but none of the shots injured him.

The yellow fever has caused a panic at Jacksonville, Florida.

Charles Crocker, the railroad magnate, is seriously ill at Monterey.

The farmers of Northwestern Iowa and Southern Dakota are blue over short crops.

A TOPSY-TURVY WORLD.

Contradictory Facts Observed by a Man with His Eyes Wide Open.

This is a sort of topsy-turvy world. No one seems to be satisfied.

One man is ordered to eat eggs because they are nutritious, and another is cautioned to leave them alone because they produce bile.

Robinson takes a sherry to give him an appetite, while Brown, who has a wine cellar, can't touch it on account of his apoplectic tendencies.

The prize-fighter reforms and becomes a preacher, while the theological student leaves his university to become a professional baseball pitcher.

One rich man wears poor clothes because he is rich and can do anything, while a poor man wears fine clothes because he is poor and wants to create the impression that he is not.

One man escapes all the diseases that flesh is heir to and is killed on a railroad, another man goes through half a dozen wars without a scratch and then dies of whooping cough.

The laborer with ten children keeps out of debt on $10 a week, while many an unmarried bank official with $100 a week can't get along without helping himself to the bank's fund.

Good people die and bad people live. The man who is fat with health can't get employment, and the man who is making money hand over fist has to give up business on account of his ill health.

One man is spending all the money he can earn in taking a girl to a theatre and sending her flowers, in the hope that he may eventually make her his wife, and his neighbor is spending all the gold he has saved to get a divorce.

The doctor tells Morrill that if he doesn't stop work and take a rest he'll go into a decline, and then tells Blakely that if he does not abandon his sedentary position and go off somewhere and work on a farm he will die of torpidity of the liver.

LITTLE AFRICANS AT PLAY.

Sports of the Little Boys and Girls of the Dark Continent.

The missionaries in Africa have found that the little girls there make imitation babies, clumsy, awkward, but to them lovely.

Just like the little girls in America, they prefer live dolls if they can have them, and so play with dogs, treating them as dolls; doing just as our children do, and yet so differently!

When our children play with a kitten or dog and call it a baby, they put an apron or a towel on it for a dress, and hold it in the lap, rocking it, and singing "By-o-baby!" Or they put it carefully on a pillow or the sofa or lounge, and put it perfectly content if it will only lie still and "be good." Just as they see real mothers do with real babies, so they do.

The little girl in Africa ties her little dog, or pig, up, and then ties it on her back, and has a lovely time; she does just what she sees real mothers do with babies. The little Indian girl straps her baby on a board and swings the board on a tree, or on her back, and would not feel that she was having a good time if she set and rocked it, or made clothes for it. She never saw a baby dressed in pretty, dainty clothes, and would not know what to do with a doll so dressed until she is taught.

Little boys in Africa do not play ball, or cricket, or fly kites, or make telephones, or put up telegraph wires between their own or their friends' houses. They make spears, shields, bows, arrows, and imitate their fathers in their games; make animals of clay which they shoot. They know few games, because their fathers can do but few things; they are cruel in their sports, because they know so little, see so little of kindness.

Little children are the tiny photographs in their play of the life lived in their homes and about them.

Coquetry Under Difficulties.

One would scarcely think there was any such thing as coquetry among Turkish women, considering the arbitrary social conditions under which they live. As a matter of fact, however, there is a good deal of flirtation going on in a surreptitious manner.

The Moslem lady coquettishly inclined, has to be very careful; any Bluebeard detecting the least impropriety might cause her ruin and even nowadays her death, if the other party was a Giaour. The Turkish lady runs very great risks and flirts under most decided difficulties.

The extent of her flirtation with a Frank would be the stealthy removal of her yashmak, to let him see her face, when meeting her at some unfrequented spot. If a very bold coquette this risky performance would be supplemented by a smile.—Thomas Stevens.

Cut and Dried.

The practical working of our public school system was thus set forth by one of its subjects:

Miss Rectangle (addressing her scholars of the ——grade)—"Now, children, this afternoon when Prof. Solfahme comes to give the music lessons and says, 'Well, scholars, what shall we sing?' whoever speaks is to say, 'Page 52,' and after that, when he says, 'What next?' you are to call out, 'Page 90.'"

Ten-year-old girl (raising her hand)—"But, if you please, Miss Rectangle, we don't any of us want to sing those tunes! We have practiced them every day till we're tired of 'em."

Miss Rectangle—"That doesn't make any difference. Any scholar calling out any other numbers will be kept after school. Remember, now. First choice, page 52; second choice, page 90. Position all."—Chicago Journal.

Pat's Suspicion.

Pat had recently secured a place on a farm. One day at noon he was handed a glass of buttermilk. He tasted the liquid, set the glass down and went into the house.

"Oi say, sorr," he said to his employer. "Don't ye think oi'd better be afther goin' out an' sayin' to the stock?"

"Why?"

"Because, Oi've me suspicions that somebody's left the cow sthandin' in the sun and lettin' her milk get sour."

Overtaxing His Brain.

Old Mrs. Bentley—"Did ye hear, Josiah, that the young student who has been boardin' at the Hendrickses is very sick?"

Old Mr. Bentley—"Yes, I heerd so; what's the trouble with him?"

Old Mrs. Bentley—"Studyin' too hard, I s'pose. The doctor says he's got information of the brain."—Omaha World.

REPUBLICAN PRIMARY.

Election Proclamation.

Primary Election Proclamation.

BY VIRTUE OF THE ANNEXED RESOLUTION, adopted at a meeting of the Central Committee of the Republican Party of the County of Mono, State of California, held on the 7th day of July, 1888, authorized by the rules and customs of the Republican Party of said County, a voluntary political organization, a precinct primary election of the said Republican Party for the election of candidates for the Assembly, Superior Judge and County Officers, to be voted for at the general election, to be held on the 6th day of November, 1888, and a Central Committee, is called for the 8th day of September, 1888, between the hours of One P. M. and Eight P. M. in said County of Mono.

RESOLVED.

FIRST.—That the nominations of Republican candidates for the Assembly, Superior Judge and the following County Offices, for Mono county, State of California, to be voted for at the general election of November 6th, 1888:

Sheriff and Tax Collector, Clerk, Auditor and Recorder, District Attorney, Treasurer, Surveyor, Coroner and Public Administrator, Supervisors, Township Officers, and a Central Committee, as follows: Antelope 2, Benton 3, Bodie 7, Bridgeport 3, Clinton 1, Lundy and Vernon 3; be held in accordance with the provisions of the Primary Election Law, Part III., Title II., Chapter XIV., of the Political Code of the State of California.

SECOND.—The names of the persons constituting the several Election Boards, and the respective places of holding the elections, in the said County of Mono, in the several precincts, are as follows:

ANTELOPE.

Chichester Hotel—Inspector, C. M. Taylor; Judges, George Chichester and Lewis Gullickson.

BENTON.

School House—Inspector, J. F. Millner; Judges, N. Daniels and John Tucker.

EAST BODIE.

Republican Headquarters—Inspector, William Stewart; Judges, A. E. Wilkinson and Eugene Godat.

WEST BODIE.

Montrose & Bradshaw's old store building (red house)—Inspector, G. H. Moyle; Judges, C. H. Donnelly and J. Z. Lockwood.

BRIDGEPORT.

Bryant's Hall—Inspector, W. T. Elliott; Judges A. H. Allen and H. L. Leavitt.

CAMERON AND CLINTON.

Hill's Store, Cameron—Inspector, A. Kilpatrick; Judges, B. T. Brown and Andrew Sayre.

LUNDY.

Justice Cordes' Office—Inspector, George Esh; Judges, J. F. McLaughlin and J. Weaver.

VERNON.

Fraser House—Inspector, James Sturgeon; Judges, J. P. Hammond and C. H. Currie.

THIRD.—That such election will be held under the provisions of the Primary Election Law, and in accordance with the rules prescribed in Sections 1083, 1084, 1144, 1145, 1146, 1147, 1148, 1162, 1163, 1164, 1174, 1175, 1196, 1199, 1200, 1201, 1202, 1208, 1224, 1227, 1229, 1230, 1231, 1232, 1233, 1234, 1235, 1236, 1237, 1238, 1240, 1241, 1242, 1252, 1253, 1254, 1255, 1256, 1257, 1258, 1259 and 1260 of the Political Code of the State of California.

FOURTH.—That in addition to the qualifications of voters, required by law, every elector entitled to vote at said election must take the test—the Test to be, 'Are you a Republican, and will you support the Republican nominees?'

FIFTH.—All the provisions of Title IV. of the Penal Code, and all the provisions of the Sections in the first Section of the Chapter, above particularly set forth, are applicable to elections held under the provisions of this Chapter from and after the last publication of the notice mentioned in Section 1359.

SIXTH.—That the notice of said election shall be published in the Bridgeport CHRONICLE-UNION, of July 14th, and the Bodie Miner, of July 16th, 1888, newspapers published weekly in Bridgeport and Bodie, respectively, in Mono county, State of California, and continuously until said day of election.

The above Resolution and Notice of Election were duly presented to, and adopted by the Central Committee of the Republican Party of Mono county, State of California, and our Secretary is instructed to publish the same as herein advised.

GEORGE H. BUMP, Chairman.
A. E. WILKINSON, Secretary of the Republican Central Committee of Mono county.

INSTRUCTIONS TO BOARD OF ELECTIONS.

1360. In addition to the challenges allowed by law, any person offering to vote at such election may be challenged upon the grounds that he does not possess the other qualifications prescribed in the resolution, and such challenges must be tried and determined by the Board of Election, who to that end may administer an oath to such persons, and may ask them any question tending to prove or disprove the challenge.

1361. None but persons who possess the qualifications prescribed by law and by the resolution must vote or participate in any of the proceedings at such election.

1362. After counting the votes and signing the lists the Judges must cause the ballots and one copy of the lists to be delivered to the Secretary signing the notice of election, and one of the Judges must retain the other lists for twenty days after the election.

TO CANDIDATES.

Candidates are required to deposit with the Secretary, on or before the 18th day of August, 1888, $10 and a written pledge to support the nominees. This does not apply to Township Officers and members of the Central Committee.

TO VOTERS.

The Central Committee will furnish tickets with the names of candidates printed thereon, and voters will scratch those whom they do not wish to vote for.

LEGAL.

SUMMONS.

IN THE JUSTICE'S COURT OF BRIDGEPORT Township of the County of Mono, State of California.

WM. WETHERILL, Plaintiff, vs. COPPER MOUNTAIN CONSOLIDATED MINING COMPANY, a Corporation, Defendant.

The People of the State of California send Greeting to

Copper Mountain Consolidated Mining Company, a Corporation, defendant:

You are hereby required to appear in an action brought against you by the above-named plaintiff, in the Justice's Court of Bridgeport Township, County of Mono, State of California, and to answer before the Justice at his office in the said Township, the Complaint filed therein, within five days (exclusive of the day of service) after the service on you of this Summons if served within the Township in which this action is brought; or if served out of said Township, but in said County, within ten days; or within twenty days if served elsewhere.

The said action is brought to obtain judgment against you for the sum of Two hundred and eighty-nine dollars, lawful money of the United States for services performed and supplies furnished to defendant at its instance and request, within the two years last past, at Mono county, California, as more fully appears by the Complaint on file herein to which you are referred.

And you are hereby notified that if you so fail to appear and answer said Complaint, as above required, said plaintiff will take judgment against you said Copper Mountain Consolidated Mining Company, a Corporation, for $289 00, together with costs.

Make legal service and due return hereof.

Given under my hand this 4th day of April, 1888.

FRANCIS HANSON,
Justice of the Peace of said Township.

MEDICAL.

WHAT AILS YOU?

Do you feel dull, languid, low-spirited, lifeless, and indescribably miserable, both physically and mentally; experience a sense of fullness or bloating after eating, or of "goneness," or emptiness of stomach in the morning, tongue coated, bitter or bad taste in mouth, irregular appetite, dizziness, frequent headaches, blurred eyesight, "floating specks" before the eyes, nervous prostration or exhaustion, irritability of temper, hot flushes, alternating with chilly sensations, sharp, biting, transient pains here and there, cold feet, drowsiness after meals, wakefulness, or disturbed and unrefreshing sleep, constant, indescribable feeling of dread, or of impending calamity?

If you have all, or any considerable number of these symptoms, you are suffering from that most common of American maladies—Bilious Dyspepsia, or Torpid Liver, associated with Dyspepsia, or Indigestion. The more complicated your disease has become, the greater the number and diversity of symptoms. No matter what stage it has reached, **Dr. Pierce's Golden Medical Discovery** will subdue it, if taken according to directions for a reasonable length of time. If not cured, complications multiply and Consumption of the Lungs, Skin Diseases, Heart Disease, Rheumatism, Kidney Disease, or other grave maladies are quite liable to set in and, sooner or later, induce a fatal termination.

Dr. Pierce's Golden Medical Discovery acts powerfully upon the Liver, and through that great blood-purifying organ, cleanses the system of all blood-taints and impurities, from whatever cause arising. It is equally efficacious in acting upon the Kidneys, and other excretory organs, cleansing, strengthening, and healing their diseases. As an appetizing, restorative tonic, it promotes digestion and nutrition, thereby building up both flesh and strength. In malarial districts, this wonderful medicine has gained great celebrity in curing Fever and Ague, Chills and Fever, Dumb Ague, and kindred diseases.

Dr. Pierce's Golden Medical Discovery

CURES ALL HUMORS,

from a common Blotch, or Eruption, to the worst Scrofula. Salt-rheum, "Fever-sores," Scaly or Rough Skin, in short, all diseases caused by bad blood, are conquered by this powerful, purifying, and invigorating medicine. Great Eating Ulcers rapidly heal under its benign influence. Especially has it manifested its potency in curing Tetter, Eczema, Erysipelas, Boils, Carbuncles, Sore Eyes, Scrofulous Sores and Swellings, Hip-Joint Disease, "White Swellings," Goitre, or Thick Neck, and Enlarged Glands. Send ten cents in stamps for a large Treatise, with colored plates, on Skin Diseases, or the same amount for a Treatise on Scrofulous Affections.

"FOR THE BLOOD IS THE LIFE."

Thoroughly cleanse it by using **Dr. Pierce's Golden Medical Discovery**, and good digestion, a fair skin, buoyant spirits, vital strength and bodily health will be established.

CONSUMPTION,

which is Scrofula of the Lungs, is arrested and cured by this remedy, if taken in the earlier stages of the disease. From its marvelous power over this terribly fatal disease, when first offering this now world-famed remedy to the public, Dr. Pierce thought seriously of calling it his "Consumption Cure," but abandoned that name as too restrictive for a medicine which, from its wonderful combination of tonic, or strengthening, alterative, or blood-cleansing, anti-bilious, pectoral, and nutritive properties, is unequaled, not only as a remedy for Consumption, but for **all Chronic Diseases of the**

Liver, Blood, and Lungs.

For Weak Lungs, Spitting of Blood, Shortness of Breath, Chronic Nasal Catarrh, Bronchitis, Asthma, Severe Coughs, and kindred affections, it is an efficient remedy.

Sold by Druggists, at $1.00, or Six Bottles for $5.00.
